RE: Graduation Requirements for the Classes of 2016, 2017, 2018, and 2019 - Updated

Yesterday, the New Jersey State Board of Education approved the threshold score points ('cut points') to define the performance levels in the PARCC assessment program. Attached you will find the now updated list of assessments and their various score points that members of the classes of 2016, 2017, 2018, and 2019 can use to demonstrate that they have met the competency testing requirements needed for a regular high school diploma with the appropriate threshold scores for PARCC assessments included. (Special Education students, whose Individualized Education Plans (IEPs) specify an alternative way to demonstrate proficiencies, will continue to follow the graduation requirements set forth in their IEPs.)

The list has now been updated to include the threshold scores for the PARCC assessments. Please note that the threshold scores are different for different assessments. In ELA9 and ELA10, the threshold score corresponds to the "Meeting Expectations" performance level. In ELA11, the threshold score corresponds to the "Approaching Expectations" performance level. In Algebra I, the threshold score corresponds to the "Meeting Expectations" performance level. In Geometry and Algebra II, the threshold scores correspond to the "Approaching Expectations" performance level.

As noted in the chart below, students who do not meet the threshold scores for PARCC or any of the other substitute assessments may submit a portfolio appeal. Guidance for the portfolio appeal process was sent to districts via broadcast in early October.

recommendations shortly regarding graduation requirements for the class of 2020 and thereafter. The New Jersey Department of Education will then move those recommendations to a regulatory proposal for State Board adoption.

Please be advised that we expect to update this table at least twice more in the upcoming months to accommodate the College Board’s redesign of the PSAT10/PSAT-NMSQT and the SAT. We have been advised that we can expect a new ‘cut score’ for the new PSAT toward the end of December and for the new SAT toward the end of May.
