

## Cliffside Park Public Schools

### Preliminary Water Testing Results

1. All copper results in all schools were below the standard 1300.
2. No drinking fountains or food preparation areas have lead samples above 15 in Schools 3 and 4.
3. Below are the preliminary results for each school. Areas identified will be shut off today, Monday, May 23. An action plan to deal with identified areas will be established with our water testing company once the final results are in.

#### School #3

None

#### School #4

2<sup>nd</sup> floor classroom 207 sink 17.6 ug/l

#### School #5
