

## **Assignments for Students Entering Grades 7 and 8**

Dear Parents,

For all students entering grades 7 through 8, summer reading is important for not only enjoyment and the love of reading, but to keep middle school skills sharp. At these grade levels, reading assignments are key. The summer reading list has been developed with an understanding of the different reading levels of the students.

Below you will find the book lists and assignments for students entering grade 7 and entering grade 8. The directions are easy to follow and the books can be found at the Cliffside Park Library or can be purchased.

Of course, your children are encouraged to read additional books at their leisure. We have included links to a variety of books on the website.

Have a Wonderful Summer!
